- Agile Methodologies
- Interactive Prototyping

EDUCATION

2nd Year M.B.B.S
University of Medicine 1, Yangon (Myanmar)
12/2015 – 10/2019 | Yangon, Myanmar

SUMMARY

Aspiring UI/UX Designer and hands-on experience creating user-centered digital interfaces through independent design projects. Intermediate proficiency in Figma, with practical knowledge of wireframing, prototyping, user flows, information architecture, visual design, and design systems. Brings a strong background in retail and sales, with valuable experience in customer communication, understanding user needs, and problem-solving. Passionate about transforming ideas into intuitive, accessible, and visually engaging digital experiences.

EXPERIENCE

UI/UX Designer Intern 08/2026 – 11/2026
Donato Yangon, Myanmar

- Assisted in designing user-friendly mobile application interfaces for iOS and Android.
- Created wireframes, user flows, and high-fidelity prototypes using Figma.
- Conducted basic UX research and developed user personas to understand target audience needs.
- Organized application content through information architecture and intuitive navigation.
- Designed reusable UI components and maintained a consistent design system.
- Applied typography, color theory, spacing, and visual hierarchy across application screens.
- Designed key features, including course discovery, course details, user profiles, notifications, and payment screens.
- Improved interface usability through design reviews and iterative refinements.
- Collaborated on developing a consistent visual identity and overall user experience.

Senior Sales Associate 10/2023 – 05/2026
Jashanmal National Co Dubai, UAE

- Delivered personalized shopping experiences by understanding customer preferences and recommending suitable products.
- Assisted in maintaining high visual merchandising standards in line with brand guidelines and seasonal campaigns.
- Built strong customer relationships to encourage repeat business and customer loyalty.
- Handled customer concerns professionally and ensured a positive in-store experience.
- Monitored sales trends and provide feedback to management on customer preferences and merchandising opportunities.
- Maintained store cleanliness, display presentation, and operational standards at all times.

CERTIFICATION

- **Google UX Design Professional** — Professional UX design training developed by Google and hosted on Coursera, covering essential skills for entry-level UX design careers.
